Discover Scotland’s rich history, heritage and archaeology. From the remains of our earliest settlements going back thousands of years, through the turbulent times of the Middle Ages and on to the Scottish Enlightenment and the Industrial Revolution, every area of Scotland has its own tale to share with visitors.

The city of Glasgow has a stunning mix of architectural styles, not least the art nouveau buildings created by celebrated Glasgow architect and designer Charles Rennie Mackintosh. You can explore the area’s rich industrial heritage at sites such as the Titan Crane, which recalls the heyday of the city’s shipping industry, or New Lanark, a beautifully restored 18th century cotton mill village, now a UNESCO World Heritage Site.

The history and heritage of Ayrshire & Arran has many facets ranging from ancient stone circles to splendid castles. Culzean Castle was a favourite holiday spot of US President Eisenhower – there’s even an apartment named after him within the Castle. This is also the birthplace of Scotland’s celebrated national poet Robert Burns.

Some of Scotland’s most magnificent castles also can be found in Dumfries & Galloway, from the unique moated Caerlaverock Castle to the impressive Drumlanrig Castle, seat of the Dukes of Buccleuch. Perhaps the most famous place of all is Gretna Green to which many couples have eloped since the 18th century.

Many places in Argyll give a special feeling of connection with the distant past. These include the peaceful sanctuary of Iona Abbey, Finlaggan - the ancient seat of the Lordship of the Isles, and Kilmartin Glen which includes 800 internationally significant prehistoric sites. Don’t miss fairytale Inveraray Castle, seat of the Duke of Argyll and head of Clan Campbell, and Mount Stuart on the Isle of Bute, perhaps Scotland’s most unusual stately home.
